

TillTally

Professional Money Counting Scale

Save the time and hassle of hand counting register tills

Counting down a drawer full of cash has never been this fast or this easy before. The Cassida TillTally Counting Scale counts loose coins, rolled coins and bills. And it can count down a drawer in under a minute... markedly faster than counting by hand.

One machine counts bills, coins and coin rolls

- **Incredibly accurate** — from coins to bills, every single piece of money is counted perfectly... and quickly
- **Counts an entire denomination** at once rather than piece by piece
- **Compact and portable** — Runs on DC power or batteries, so take it anywhere you need to count
- **Accurate accounting** — access a denomination-by-denomination report any time during your count. You can even get a print out for auditing
- **Stack up to 15 bills** in a drop and 200 bills per denomination

Count a drawer full of cash in under a minute!

Stop counting by hand and start counting by weight. Get your team a TillTally and makes quick work of register counts while eliminating inaccuracies, long register closures and employee overtime that often occur with hand counts.

TillTally counts by weight

Counting money by weight is a method major retailers have trusted for decades because it's super accurate, very fast — but also expensive. TillTally now makes count-by-weight technology available to you, and it's very cost-effective — TillTally pays for itself in the time savings.
